"he has no equal," in the words of the associated press, "when it comes to thriller writers, one name stands well above the crowd--jack higgins." it is night in manhattan. the president of the united states is scheduled to have dinner with an old friends, but in the building across the street, a man has disabled the security and stands at a window, a rifle in his hand. fortunately, his attempt is not successful--but this is only the beginning. someone is recruiting a shadowy network of agents with the intention of creating terror. their range is broad, their identities masked, their methods subtle. white house operative blake johnson and his counterpart in british intelligence, sean dillon, set out to trace the source of the havoc, but behind the first man they find another, and behind the second another still. and that last man is not pleased by the interference. soon he will target them all: johnson, dillon, dillon's colleagues. and one of them will fall. filled with all the dark suspense and sudden action for which higgins has become famous, and drive by characters of complexity and passion, dark justice shows the master at the peak of his powers. ...more get a copy
